

## **Journal Entry #1: (1 page)**

Describe your risk tolerance comfort level, based on the risk tolerance assessment from class. Was the assessment a good match with what you believe about your personal risk tolerance level? Explain why or why not. Based on your risk tolerance level, describe which type of investment strategy you are more comfortable with ('Buy and Hold' or 'Market Timing'). Which do you believe will perform better for you throughout the course of the semester? Explain your reasoning.
